

The image depicts a digital word search game interface. A large, semi-transparent teal rectangle is centered over a word search grid. Inside this rectangle, the text "Well done!" is displayed in a large, white, sans-serif font at the top. Below it, in a smaller white font, is the message "You completed the puzzle in 20 seconds". At the bottom of the teal rectangle are two dark grey rectangular buttons with rounded corners; the first button contains the text "Find another puzzle" and the second button contains the text "Play again". The background consists of a light grey grid where various words have been found and highlighted with colored vertical bars. On the left side, an orange bar highlights the word "FORMERLY" and a purple bar highlights "OUR". In the center-left, a pink bar highlights "BOMBAY" and a blue bar highlights "AIRPORT". On the right side, a green bar highlights "KINGSTON", a light green bar highlights "LATER", and a teal bar highlights "UPPER". Other partially visible words include "DOWN" (orange), "YOUTH" (purple), "DUDU" (blue), "TUT" (purple), "P" (green), "R" (teal), "E" (light green), "E" (light green), "O" (light green), "U" (light green), "L" (light green), "A" (light green), "T" (light green), and "E" (light green). The overall aesthetic is clean and modern.
